Shades

Where Light Meets Control

The Honeycomb shades was inspired by the design of the world's most perfect building the honeycomb. It is a new type of environmental-friendly and energy-saving window decoration product combining beauty and comfort which brings users a comfortable feeling of warm in winter and cool in summer and creates a quiet space. Meanwhile, it is durable and easy to maintain.

Honeycomb shades can be made in a variety of forms, including day and night shades, top down bottom up shades, and common shapes.
